# Focus on your business, not your statement.

You have control over your monthly fees — it's easier than ever.

You know your business better than anyone else. So you should decide how much you pay for merchant services. **TransFreedom** gives you the flexibility to decide what fee structure works best for you, based on your monthly processing volume and average ticket size.

**We Are** always here to support you if you have questions about which plan is best for you.

## HERE'S AN EXAMPLE OF HOW IT WORKS:

- Your average ticket size is more than \$20, so you'll work from **Chart A**
- Your average monthly processing volume is \$3,800, so you would select Plan 3 with a maximum monthly volume of \$5,000 — this gives you the freedom to grow your business and still process at the flat monthly rate of \$129
- You sometimes have months where your volume is higher than your average — but **TransFreedom** builds in bonus volume of \$1,000 in each plan, so Plan 3 is still right for you
- If you find your volume exceeds expectations and sales increase, additional volume will be automatically purchased in \$20 increments for each \$500 in processing volume needed — that means you can do more business and your original flat rate is still in place
- If your business grows so much that your average monthly sales exceed \$5,000, you simply request a change to the next plan level — you'll still continue to save

## CHART A

Monthly Volume Pricing Grid				
Average Ticket \$20 OR MORE				
Plan	Tier Maximum	Rate	Free Bonus Volume	Additional Volume***
1	\$500	\$39	\$1,000	\$20
2	\$2,500	\$79	\$1,000	\$20
3	\$5,000	\$129	\$1,000	\$20
